

## **Solid Waste Rules & Regulations (SWRR)**

### **Significant Non-Compliance (SNC) Violations**

Are on-site structures for methane control designed properly?[Ch. 2 Sec. 4(o)]

Does the facility handle liquid wastes?[Ch. 2 Sec. 5(e)]

Is hazardous waste screening program adequate with all necessary department notifications?[Ch. 2 Sec. 5(f)]

Has the facility performed open burning without approval?[Ch. 2 Sec. 5(j)]

Is cover placed according to the required frequency and application requirements?[SWRR Ch 2 Sec.5(q)]

Has intermediate cover been placed when required?[Ch. 2 Sec. 5( r)]

Are areas promptly reclaimed?[Ch. 2 Sec. 5(s)]

Is discharge to surface water prohibited?[Ch. 2 Sec. 5(v)]

Has the facility prevented waste contact with groundwater?[Ch. 2 Sec. 5(w)]

Is there a copy of the permit application?[Ch. 2 Sec. 5(y)(ii)(A)]

Are trench specification records being kept for length, width, depth and location?[Ch. 2 Sec. 5(y)(ii)(G)]

Have lead acid batteries been disposed at the landfill? [Wyoming EQA, 35-11-509]

If the landfill operator performs vehicle service activities onsite and has a total used oil storage capacity greater than 2,000 gallons if vehicle service activities are performed or greater than 500 gallons if vehicle service activities are not performed, do they have a used oil storage permit? [Ch. 2, Sec. 1(f)]

Are groundwater samples being collected and managed in accordance with department guidance or in accord with equivalent methods approved by the administrator? [Ch. 2, Sec. 6(a)]

Does the final cover meet the final cover specification requirements? [Ch. 2, Sec. 7(d)]

Does the facility meet the methane requirements if the required methane limits are exceeded? [Ch. 2, Sec. 5(t)]
